The Department of Natural Resources is providing this report to satisfy the requirements of the "Procedures Concerning Certain Licenses Act", IC 14-11-4, and its associated administrative rule, 312 IAC 2-3. The application files are available for public inspection at the Division of Water's office in Indianapolis. Please contact the Division's Technical Services Section at (317) 232-4160 or the toll free number 1-877-928-3755 to make an appointment for file review. Photocopies may be made for a nominal charge of \$0.10 per 8 1/2 " X 11" copy.

A pre-action public hearing on an application may be requested by filing a written petition with the Director, Division of Water:

Michael W. Neyer, P.E., Director Division of Water Room W264 402 West Washington Street Indianapolis, Indiana 46204

For a petition to be considered valid it must:

- 1. Contain the typed or legibly printed name and complete mailing address of each petitioner;
- 2. Be signed by a minimum of 25 individuals who are at least 18 years old and either reside in the county where the project will take place or own real property within 1 mile of the project site;
- 3. Affirm that each signatory to the petition satisfies the requirements of item 2; and
- 4. Identify the application for which the public hearing is being requested either by the application # or the applicant's name and the project description.

A petition which does not meet these requirements will be considered invalid and the hearing request will not be granted.

A person may request that the Department provide written notice of its action on an application by filing a written request with:

Division of Water Room W264 402 West Washington Street Indianapolis, Indiana 46204

The request must identify the application by either the application # or the applicant's name and the project description.

Application # : FW-23029

Stream : Wabash River

Applicant : City of Clinton

Mayor Ron Shepard 259 Vine Street

Clinton, IN 47842-2199

Description : A stormwater outfall structure will be constructed near the Wabash River to

improve drainage from Main Street in the City of Clinton. Two (2) 42" diameter Type 2 pipes will be buried to a depth of 2' in the floodplain. The pipes will terminate on the right (west) river bank with a concrete end section conforming to the slope of the bank. An energy dissipater at the base of the end section will consist of a concrete slope wall and 111 cubic yards of end dumped riprap placed

over geotextile filter fabric. Details of the project are contained in plans and

information received at the Division of Water on August 9, 2004.

Location : On the right (west) bank of the Wabash River at the end of Blackman Street

DOWNSTREAM: at Clinton, Clinton Township, Vermillion County NE¼, NW¼, SE¼, Section 15, T 14N, R 9W, Clinton Quadrangle

Quad Code: 3908764

UTM Coordinates: Downstream 4389675 North, 466050 East

UPSTREAM: Vermillion County

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312

Application # : FW-23061

Stream : South Poplar Branch

Applicant : Jeffrey S Morgan

3145 South Pixley Knob Road

Pekin, IN 47165-9326

Description : An existing flood damaged culvert carrying a private drive over the stream will be

replaced with a new structure. The new structure will be a single-span steel I-beam bridge with an out-to-out length of 30' and a clear roadway width of 20'.

The approach roads will not be elevated. The existing structure will be

completely removed. Details of the project are contained in information and plans received at the Division of Water on August 30, 2004 and September 1, 2004.

Location : Approximately 3500' upstream (southeast) of the confluence with Middle Poplar

Branch

near Henryville, Washington Township, Washington County

NW1/4, SW1/4, NW1/4, Section 4, T 1N, R 6E, Henryville Quadrangle

Quad Code: 3808557

Statute/Rule : Flood Control Act, IC 14-28-1, with the associated Flood Hazard Area Rule, 312

Application # : FW-23063

Stream : Silver Creek

Applicant : SBC

Brent A McCabe

4517 East Indiana Bell Court Bloomington, IN 47408-3101

Description

Nine new plastic conduits, arranged 3 x 3 and encased in concrete will be placed beneath Silver Creek to replace 10 transite ducts that are presently attached to the Floyd County Bridge #70. This bridge is going to be renovated with a new bridge deck. The new bridge will not allow reattachment of the utility lines. The conduits will be placed by the trench method, directional boring is not an option in the pipeline crossing situation due to the existing type of rock in the creek bed. The conduits will have a minimum of 5' of cover beneath the streambed and 5' of cover in the banks. Conduit will be 2' south and in the same trench as the new proposed Vectren 12" gas main. Details of the project are contained in information received electronically at the Division of Water on September 1, 2004.

Location

Approximately 4800' upstream of the Ohio River confluence, just downstream of the State Road 62 and State Road 131 crossing at New Albany, New Albany Township, Floyd County, Clark Military Grant #29, New Albany, In-Ky Quadrangle UTM Coordinates: Downstream 4239650 North, 605050 East upstream. The project is located at the Silver Creek Bridge on Old Highway 62, between Spring Street, New Albany, Indiana and Brown's Station Way, Clarksville, Indiana. This project is located in both Floyd and Clark Counties in the NE quarter of Section 29, Township 2 South, Range 6 East.

Application # : FW-23067

Stream : Stephens Creek

Applicant : Diana L Holdman

PO Box 502

Bloomington, IN 47402-0502

Description : A new bridge will be constructed over Stephens Creek to carry a private driveway

traffic across the stream. The new structure will be a 53' span. Railroad flatcar bridge with clearspan lengths of 60'. The structure will have an out-to-out length of 60' and a clear roadway width of 12'. The spill through abutments will have 2:1 sideslopes armored with limestone riprap. The abutments and piers will be skewed 15 degrees to align with streamflow. The approach roads will be elevated a maximum of 4' above the existing grade. A temporary construction access crossing is not needed. The creek is dry 10 months of the year and is easily crossed with a vehicle downstream south side of the proposed bridge. The project is not federally funded. Details of the project are contained in

information received electronically at the Division of Water on September 8, 2004.

Location : Approximately 2\10 of a mile north of 1495 N. Gettyscreek road, which is a farm

house that is part of the 90 acres we own. The creek now separates approx 60

acres from the other 30 acres.

Application # : PL-19971

Lake : North Pine Lake

Applicant : Norma J. Morrical

James E. Morrical 300 Island Drive

LaPorte, IN 46350-2278

Description

: A concrete or gravel boat ramp will be constructed along 10' of the approximate 178' frontage at North Pine Lake to provide enhanced recreational and maintenance access. The ramp will extend approximately 10' lakeward of the seawall, and will conform to the average normal shoreline of the lake. A new seawall will be constructed across approximately 178' of the approximate 178' frontage of the applicant along North Pine Lake to deter shoreline erosion. The wall will replace an existing railroad tie seawall and will consist of concrete which will be sloped on the lakeward side. It will be approximately 48" high and will vary uniformly in thickness from 12" to 8" from the base to the top. The lakeward face of the wall will be average normal shoreline. A 20" wide layer of concrete will be placed at the base of the wall for toe protection. Details of the project are contained in information received electronically at the Division of Water on September 8, 2004.

Location

: Along the shoreline of North Pine Lake, LaPorte, Indiana; Lot 22 Except the East 1/2 of said lot, and lots numbered 23 and 24 in Block C as shown on the recorded plat of Tree Haven Subdivision a part of Albrecht's Island near LaPorte, Center Township, LaPorte County
